

HOME FINANCING FOR REAL ESTATE INVESTORS

DSCR LOANS

For real estate investors, securing a home loan might seem difficult. Traditional mortgage applications require specific paperwork, including tax returns, W2s, and other income documentation. However, those purchasing investment properties can qualify based on anticipated income generated from those real estate investments.

Benefits of a DSCR Loan:	ELIGIBLE BORROWERS
» Approval is based on the property's anticipated income, not W2s or tax returns » Less paperwork means a quick funding process » Investors can finance multiple properties without worrying about traditional DTI restrictions » Available for single-family rentals, multi-unit properties, and short-term rentals	» U.S. citizens » First-time investors » Permanent resident aliens » Inter-vivos revocable trust » Limited liability company (LLC) personal guarantor required
